

head(amame) V2.01

July 20, 2023

A tiny little update.

Change Log

- Added rubber bumper assembly tool to help you install the little rubber bumpers!
- Added headphone stand files!
- [Assembly instructional video is here!](#)

Additional News

head(amame) will be at LTX Expo!

If you are going to LTX let us know and be sure to stop by Booth 34 to see us, Bambu, Prusa, Pantheon and Shop3D.ca!

Site rebrand is nearly complete!

We are nearly complete our rework making everything run a little smoother, smarter, and overall better on the website.

Wrapping up

These Release Notes are always a fun place to deliver a message to those who I think truly care about head(amame). Today that message is **THANK YOU!** I constantly look forward to seeing your builds posted all over the internet!

If you are looking for the CAD files to get modding, they are currently in the [PATREON](#).

Don't forget to [SUBMIT FOR A SERIAL NUMBER](#) the count starts now for V2 builds!

Happy printing!

Morgan
